Penugonda, Andhra Pradesh.

SKILLS

- C
- C++
- Java
- Springboot
- SQL
- HTML
- CSS
- JavaScript
- Gitlab
- Confluence

EDUCATION

B.Tech in Computer Science and Engineering Andhra University
College of Engineering,
Visakhapatnam

2019 - 2023
CGPA - 8.00/10

Board of Intermediate Education -
Andhra Pradesh, Aditya Junior
College, Kakinada

2017 - 2019
CGPA - 9.86/10

Secondary School Certificate -
Andhra Pradesh

SriChaitanya TechnoSchool,
Penugonda
2017
CGPA - 10/10

SOCIAL PROFILES

PROFILE

Software Developer with hands-on experience in designing, developing, and maintaining backend applications using Java and Spring Boot. Currently working at TCS, with a strong background in building RESTful APIs, managing database operations, and enhancing application performance. Successfully upgraded applications from Java 11 to Java 21, ensuring improved efficiency and modern standards compliance. Possesses a solid understanding of backend development principles and is a continuous learner committed to writing clean, efficient, and scalable code.

WORK EXPERIENCE

Software Developer

July 2023 - Current

Tata consultancy services

- Developed and maintained backend microservices using Spring Boot, Spring Cloud, and Java (8-21).
- Built and enhanced RESTful APIs with Spring Security (JWT), contributing to secure authentication and system integration.
- Worked with Spring Data JPA, Hibernate, and SQL to implement CRUD operations and improve query performance, contributing to an overall ~5% improvement in application performance.
- Assisted in deploying applications using Docker, AWS (EC2, S3), and CI/CD pipelines, ensuring reliable releases.
- Integrated Kafka/RabbitMQ messaging and SAP APIs, while resolving production issues and improving application stability.

PROJECTS

Crime Analysis and Prediction - (2023 - Final year project)

Final year Project implemented by group of four three members. It predicts the crimes in the specified area based on crimes history. Technologies used are html, css, chart.js Linear regression, scatterplot, python.

MiniTorrent - Peer-to-Peer File Sharing - (June 2026 -current)

Designed and implemented a P2P file sharing system in C++ using TCP sockets with chunk-based transfers, multithreaded peer handling, tracker-based registration, and SHA-256 integrity verification, improving download efficiency by enabling simultaneous chunk retrieval from multiple peers.

CERTIFICATIONS

- Android App Development Ethical Hacking
- Python Certificate by Millenium
- Hackerrank Problem Solving
- Frontend Web Development
- Amcat Certificate

COURSE WORK

- Operating Systems
- Computer Networks
- Data Structures and Algorithms
- Database Management Systems
- Computer Architecture
